

Часть В

Применение карбюраторов

Настоящую информацию следует использовать при идентификации конкретного карбюратора, установленного на автомобиле; в за-
-азах "Д", "Е", "Ж" и "З" приведено детальное описание каждого
-ипа карбюратора. Цифры в названии карбюратора, следующие за
-аименованием производителя, указывают на диаметр главного [-

ных] диффузора [-ов], тип карбюратора определяется по последней
группе букв/цифр. Например: **Pierburg 36 1B1** означает
карбюратор Pierburg 1B1 с одним диффузором диаметром 36 мм,
в то время, как **Pierburg 2B/30 2E2** означает карбюратор Pierburg
2E2 с первичным диффузором диаметром 28 мм и вторичным
диффузором диаметром 30 мм.
